

As we
experience
the ups
and downs
of life,
it's always
nice to have
someone there
to remind us
of the ups!

Mark Little

Dear Linda,

Thinking of you! So sorry to hear of your accident. Hardly the way you'd want to spend a "vacation" of 6 weeks.

You've always done a lot to bring me "up"! Your message comes through loud and clear and I want to take a day to visit with you. I think I want to learn about computers and I can only say you could point me in a direction, perhaps. I think I'd enjoy a change of location if I'm smart enough to learn a little. Perhaps I want to make a move to Topeka. Lots of "perhaps" floating in my head.

Thanks for taking my gills from me. If the NA meeting can start again, it would be great, but at least it served its purpose since God worked through you that night we did some serious talking. Thanks for being there for me. I'm so very grateful.

Stay "up"! We all miss seeing you in Horton and Hiawatha.
