

The world steps aside
to let anyone pass who
knows where she is going.

GOOD
LUCK!

MPRESSIONS

Made in
Leawood, Kansas

Embossing... is an ancient printing technique dating to the Middle Ages.

In order to create this special work of art for you, a plate was designed with varying surface levels to create a raised image.

A high quality paper is then used in conjunction with the plate to make this special print for you.

Finally, each print is hand painted by an artist leaving a beautiful lasting...

MPRESSION!

We are proud to lend our creativity to an American made product.
